Subject: Application for Mobile App Development Intern Position

Dear Hiring Manager,

I am thrilled to apply for the Mobile App Development Intern position at Tikona, as advertised through K L University. My name is K.Deepthi Sree, and I am currently in my final year pursuing a B. Tech in Computer Science Engineering with a CGPA of 9.4. I am eager to contribute my skills and enthusiasm for mobile app development to your dynamic team.

The opportunity to work closely with your development team to design, develop, and maintain mobile applications for both Android and iOS platforms truly excites me. My academic experience has provided me with a solid foundation in programming languages such as Java and Kotlin. Additionally, I have gained a basic understanding of UI/UX design principles and mobile application architecture, which I am eager to apply in a practical environment.

I am particularly drawn to this internship because it offers the chance to participate in all stages of the mobile app lifecycle—from ideation and design to development and deployment. My strong attention to detail and problem-solving abilities will help me effectively identify and resolve issues to improve application performance. Furthermore, my experience with RESTful APIs, JSON, and version control systems like Git will enable me to integrate features seamlessly and make meaningful contributions to your projects.

I am excited about the opportunity to gain hands-on experience in mobile app development and to learn industry best practices at Tikona. I am committed to continuously exploring new technologies and methodologies, which aligns perfectly with your team's innovative spirit.

Thank you for considering my application. I would appreciate the opportunity to discuss my qualifications with you further.

Best regards,
K.Deepthi Sree
